About DGL International

DGL International provide market leading factory-applied powder coatings for premium architectural projects coated in Australia, New Zealand, China and Southeast Asia. Our mission is to enhance, protect, and maintain the places and spaces where people live and work by offering innovative, high-quality powder and paint coating solutions.

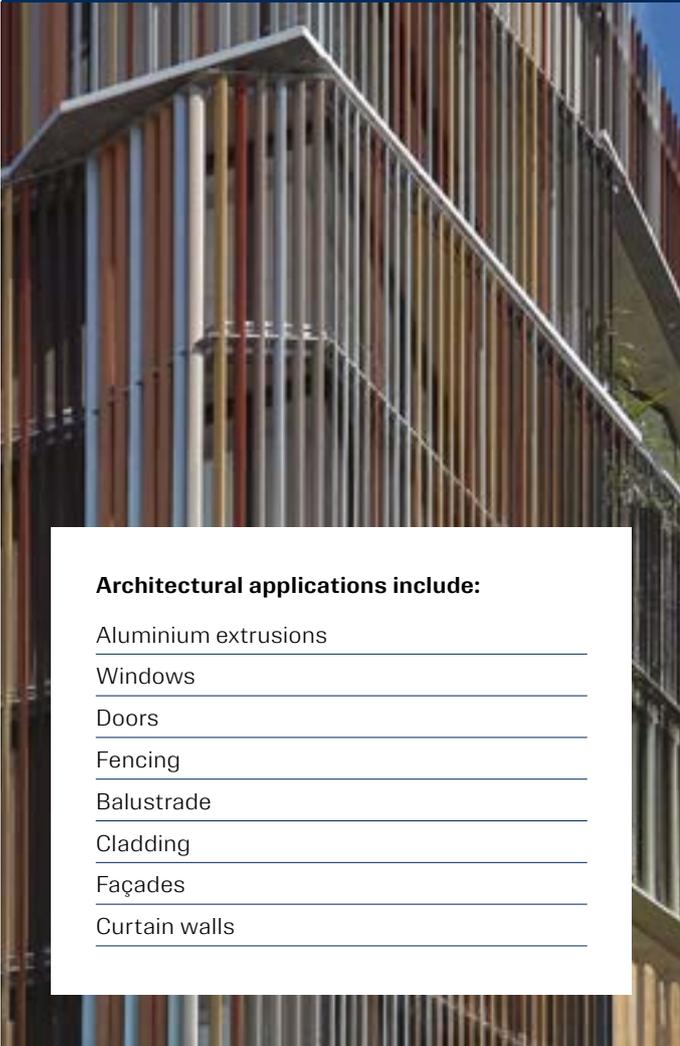

DGL – part of DuluxGroup Australia*

DGL International is part of DuluxGroup*, a renowned paints and coatings industry name in Australia and New Zealand. This connection allows DGL International to utilise DuluxGroup's* extensive expertise, technology, and industry reputation to provide top-tier branded products and services. Since 2019, DuluxGroup has been part of Nippon Paint Group, the world's fourth-largest paint company. In regions where DuluxGroup does not own the Dulux trademark, the DGL International brand is used.

Our Focus Market Segments

Our primary focus is on premium architectural and industrial applications, including:

Architectural

Architectural applications include:

- Aluminium extrusions
- Windows
- Doors
- Fencing
- Balustrade
- Cladding
- Façades
- Curtain walls

Industrial

Industrial applications include:

- Shop fittings
- Lighting
- Furniture
- Shipping containers
- Automotive
- Appliances
- Specialty coatings

* DuluxGroup does not own the Dulux trademark beyond Australia, New Zealand, Fiji, Samoa and PNG. Where the Dulux trademark is used in countries other than these jurisdictions, DuluxGroup is not associated with and has no connection to the owners of the Dulux trade marks in those other countries, nor does it sell Dulux Products in other countries.

Our Commitment – The Importance of Quality

At DGL International, we prioritise quality in all our endeavours. We are dedicated to product stewardship, research, and development, ensuring our products adhere to rigorous international and industrial standards and provide durability, aesthetic appeal, and long-lasting performance while minimising environmental impacts throughout the product's lifecycle. This emphasis on quality supports our customers in achieving their design intent and upholding their professional reputation. DGL International offers a range of durable and super durable polyester, and ultra durable fluoropolymer powder coatings, to meet various customers' needs.

Quality

Our products are formulated using advanced chemistry and science to deliver highly technical solutions that exceed expectations.

Expertise

Our team provide specialist factory coating support, technical assistance and expert problem solving. Our business development team provide expert specification advice to unlock the benefits of factory applied coatings on projects.

Transformation

Our coating systems transform substrates to ready to install solutions. Our coating solutions offer colours, patterns, textures and finishes that transform surfaces while providing longlasting durability.

Reliability

Our solutions offer proven and reliable performance, giving you the confidence of straightforward application and the high level of protection backed by a DGL warranty.

Our Brands and Powder Coating Products

DGL International produces high-quality architectural and commercial powder coatings under the DGL International brand which are innovated to fulfil architectural projects' needs with leading colours and finishes. These products are produced in China through approved manufacturers who follow our stringent formulation standards.

Our manufacturing sites in Australia and New Zealand supply aligned powder coatings under the Dulux brand for these regions*.

DGL International adopts a collaborative and integrated approach to assist manufacturers, fabricators, architects, and builders, regardless of the project's origin. Our co-ordinated efforts in manufacturing, specifications, and sales support across China, Southeast Asia, Australia, and New Zealand ensure premium quality powder coatings and colour assurance for projects throughout the Asia Pacific.

Our Assurance and Warranties

DGL International's Alumi Shield™ Warranties are exclusively offered to DGL Accredited Powder Coaters. They guarantee that the powder coating will not peel, crack, or flake during the warranty period. The DGL International Accreditation Program includes rigorous testing and quality assessments to uphold the highest standards. It instils confidence in industry professionals by ensuring excellent project outcomes and confirming the applicator's quality and reliability.

All DGL Accredited Powder Coaters are required to undergo regular audits and complete project-specific testing for any job requiring a warranty. Our technical centres evaluate samples to ensure they meet the stringent standards necessary to qualify for an Alumi Shield™ warranty.

We provide product excellence through a strong commitment to performance, offering reliable protection for our customers. Our comprehensive accreditation and warranty programs deliver quality assurance and reinforce confidence in the durability and longevity of our coatings.

Colour Leadership and CustomColour™ Service

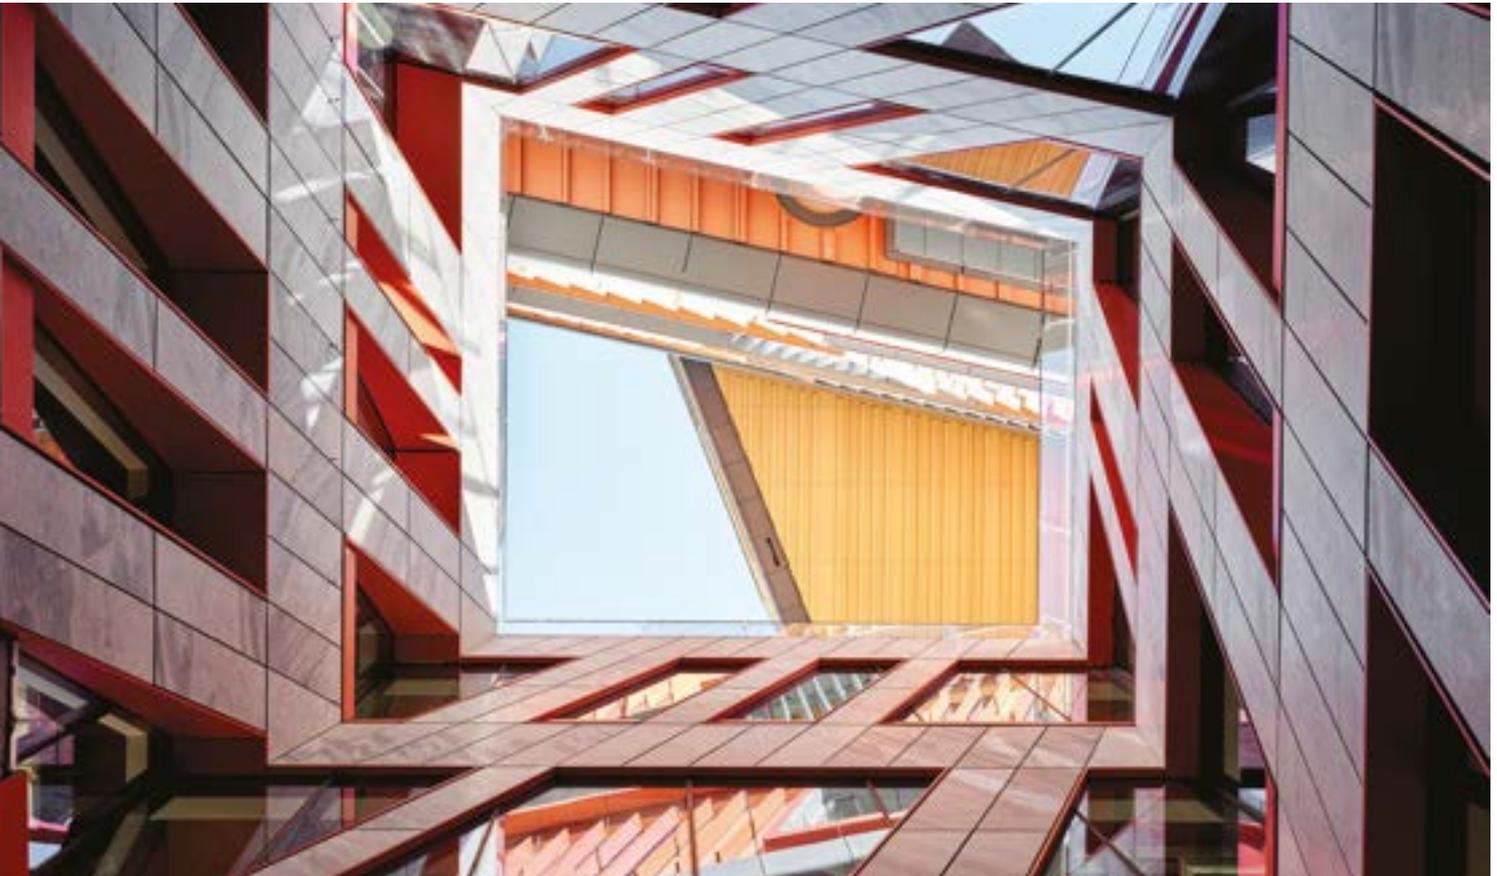

At DGL International, we take pride in leading the way in colour innovation within the architectural powder coatings sector. Our dedication to excellence is reflected in our comprehensive range of services and our ability to deliver bespoke colour solutions that meet our customers' unique needs.

Colour Leadership is a cornerstone of our success. We offer an extensive palette of colours and finishes, designed to inspire and elevate architectural projects. Our colour ranges are meticulously curated to provide vibrant hues, subtle shades, and everything in between, ensuring every project can achieve its desired aesthetic.

Our CustomColour™ service is designed to meet the specific needs of architects and designers who seek to differentiate their projects through bespoke colour solutions. This service includes:

- **Colour Matching:** Our advanced colour matching technology ensures precise replication of desired shade, allowing seamless integration into any project.
- **Made-to-Order Manufacturing:** We offer a made-to-order manufacturing process that guarantees the highest quality and consistency in custom colours.

Numerous successful projects have demonstrated DGL International's colour leadership and CustomColour™ service.

DGL Colour Confidence

Through DGL's international reach and Dulux's* trusted local presence in Australia and New Zealand, DGL Colour Confidence connects global supply chains with local accountability. Whether your project spans Australia, New Zealand, China, or Southeast Asia, you can be assured that the colour, finish, and performance will be consistent.

DGL delivers its colour confidence through the following key programs:

One company.

DGL ensures a seamless experience with aligned powder coat ranges, empowering architects and builders to specify and apply coatings confidently—wherever the project is coated. Utilising Dulux in Australia and New Zealand and DGL International elsewhere, customers receive a consistent, high-quality product portfolio.

Aligned Colour

The DGL Premium Architectural Colour Selectors and swatches mirror Dulux's* Premium Architectural Colour Selectors in Australia and New Zealand, ensuring visual and technical consistency across regions.

Aligned Product Ranges

Unified naming, codes, and finishes simplify specification and ensure accurate delivery.

Aligned Warranty

Dulux* in Australia and New Zealand and DGL elsewhere, offer matching Alumi Shield™ warranties with shared performance and durability standards.

Accredited Application

Only Dulux* Accredited Powders Coaters in Australia and New Zealand or DGL Accredited Powder Coaters elsewhere can issue valid warranties, ensuring quality and compliance.

Global Confidence, Local Expertise

DGL's global reach and Dulux's* local strength in Australia and New Zealand ensure consistent colour, finish, and performance—anywhere your project goes.

For more information about DGL Colour Confidence visit dglpowders.com.

* DuluxGroup does not own the Dulux trademark beyond Australia, New Zealand, Fiji, Samoa and PNG. Where the Dulux trademark is used in countries other than these jurisdictions, DuluxGroup is not associated with and has no connection to the owners of the Dulux trade marks in those other countries, nor does it sell Dulux Products in other countries.

The Projects DGL International Enhances

DGL International plays a significant role in enhancing the visual and structural quality of various architectural projects. Our high-quality powder coatings are crafted to offer excellent protection and an attractive finish, making us the top choice for numerous high-profile developments.

Our Specialisation: Architectural Buildings

High-Rise Buildings: We deliver solutions for high-rise structures, ensuring durability and visual appeal. Our coatings are designed to endure extreme environmental conditions, providing long-lasting protection while preserving the building's aesthetic over time.

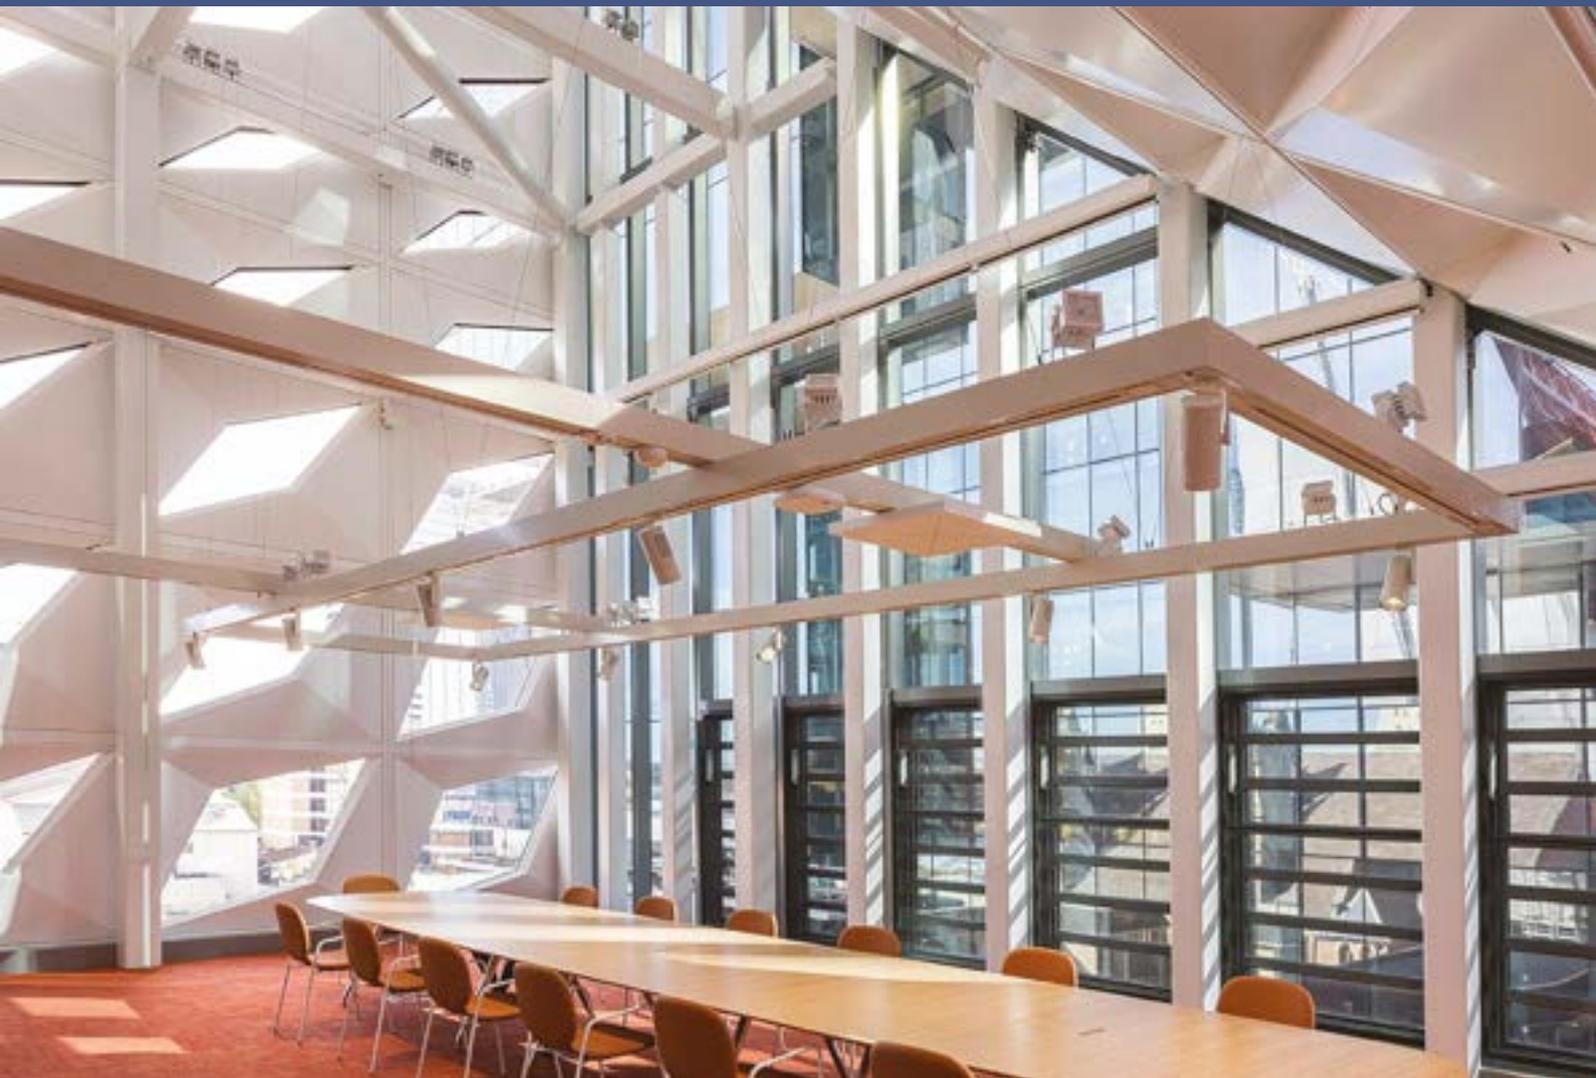

Commercial Fit-Outs: Our coatings are perfect for commercial fit-outs, offering a sleek and professional appearance. Whether for retail spaces, office buildings, or other commercial properties, our powder coatings provide a premium finish that enhances the area's appearance and functionality.

Multi-Storey Residential Buildings: We provide coatings that improve the appearance and durability of multi-storey residential buildings. Our products are designed for excellent

weather resistance and durability, ensuring that residential buildings retain their beauty and structural integrity for many years.

Our participation in high-profile projects demonstrates our capability to achieve outstanding results. Notable examples include the Walan Apartments, the PHIVE Community & Civic Hub and the Perth Arena projects, which showcase our ability to deliver bespoke colour solutions and durable coatings that elevate architectural designs.

Who Benefits from DGL International

DGL International serves architects, builders, and fabricators by offering premium, high-quality powder coatings that meet international and industrial standards. Our products assist customers in achieving their design objectives while ensuring durability and long-lasting performance.

DGL International adopts a collaborative and integrated approach to supporting manufacturers, fabricators, architects, and builders regardless of the project's origin. Our co-ordinated manufacturing, specification, and sales support across China, Southeast Asia, Australia, and New Zealand guarantees that we deliver high-quality powder coatings and colour assurance for projects throughout the Asia Pacific region.

By partnering with DGL International, architects can access our extensive range of colours and finishes. This allows architects to bring their creative visions to life and ensures that every project stands out with a unique and vibrant aesthetic. We provide builders with durable and reliable powder coatings that enhance their constructions' structural integrity and visual appeal, ensuring long-lasting performance and protection. Our high-quality powder coatings offer fabricators the flexibility and precision needed to meet the specific requirements of each project, providing a flawless finish and superior durability.

Our commitment to quality, innovation, and an extensive support network makes DGL International the preferred choice for professionals seeking exceptional powder coating solutions.

Why Choose DGL International

DGL International is a leading supplier of premium powder and paint coatings, catering to markets in Australia, New Zealand, China, and Southeast Asia. We aim to improve, safeguard, and maintain the environments where people live and work by delivering innovative, high-quality coating solutions.

Unmatched Quality and Durability

Quality is central to DGL International's operations. Our products adhere to strict international standards, ensuring they are durable, visually appealing, and perform well over time. This dedication to quality helps our customers achieve their design goals and maintain their professional image.

Innovation and Expertise

As part of DuluxGroup, a well-respected name in the paint and coatings industry, DGL International benefits from extensive expertise, technology, and a strong industry reputation. Since 2019, DuluxGroup has been part of Nippon Paint Group, the fourth-largest paint company globally.

Comprehensive Support and Service

Our dedicated teams and easy-to-use online tools help customers bring projects to life.

- **Specification & Colour Advice:** Get expert guidance on specifications, colours, products, and technical details.
- **Dedicated Support:** Our consultants and business development manager assist with product selection, specifications, and sample swatch requests.

Extensive Regional Presence

DGL International adopts a collaborative and integrated approach to assist manufacturers, fabricators, architects, and builders, regardless of the project's origin. Our co-ordinated efforts in manufacturing, specifications, and sales support across China, Southeast Asia, Australia, and New Zealand ensure premium quality powder coatings and colour assurance for projects throughout the Asia Pacific.

Bankstown Campus, Western Sydney University

Location Western Sydney, NSW, Australia

Project Overview Western Sydney University's new Bankstown City Campus is a modern vertical campus designed to anchor a future-focused health and education precinct. It features flexible learning spaces in a green, accessible urban setting

Products Used For this project, DGL Powder Coatings supplied a selection of high-performance powder coatings designed to guarantee durability, colour retention, and an aesthetically pleasing finish. Nine Custom Colours of Duratec Elements₂ were utilised in this endeavor. The products used include:

- Duratec Elements₂ Bankstown Yellow (CustomColour™)
- Duratec Elements₂ Bankstown Orange (CustomColour™)
- Duratec Elements₂ Bankstown Brown (CustomColour™)
- Duratec Elements₂ Bankstown Red (CustomColour™)

Photography Nic Walker

Walan Apartments

Location Brisbane, Queensland, Australia

Project Overview The Walan Apartments in Brisbane, Queensland, are a testament to the exceptional capabilities of DGL Powder Coatings. The project aimed to realise the architectural vision for a strong graphic expression of the cliffscape at Kangaroo Point. To achieve this, three custom colours were expertly matched and created by our CustomColour™ service within the Electro anodised look range. A total of six Electro powder coatings were selected for their anodised effect and dynamic interaction with light. The collective impact of these colours complements the ingrained colour palette of the Kangaroo Point rock face and represents the changes on the cliff-face over time.

Products Used For this project, DGL Powder Coatings provided a range of high-performance powder coatings to ensure durability, colour retention, and a visually appealing finish. The products used include:

- **Electro Manor Red Gold (CustomColour™)**
- **Electro Gold Pearl (CustomColour™)**
- **Electro Copper Pearl (CustomColour™)**
- **Electro Burnished Copper**
- **Electro Natural Silver**
- **Electro Sensational Champagne**

Photography Christopher Frederick Jones

PHIVE Community & Civic Hub

Location Parramatta, NSW, Australia

Project Overview The PHIVE Community & Civic Hub in Parramatta, New South Wales, is a distinctive architectural marvel that serves as both a roof and a façade. The building features a panellised system of self-shading windows and skylights, allowing filtered light to flood the interiors while protecting from heat and glare. This innovative design enhances the aesthetic appeal and functionality of the space, making it a landmark in the area.

Products Used For this project, DGL Powder Coatings provided high-performance powder coatings to ensure durability, colour retention, and a visually appealing finish. The products used include:

- **Duratec Elements²**: Selected for its durable finish and colour retention. It provides a flat surface that minimises reflections at all angles, including low-angle sun reflections.
- **Duratec Zeus**: Used to complement the overall design with its superior performance and aesthetic qualities.

Colours: The project utilized a variety of custom colours to achieve the desired visual effect. These colours include:

- **Monument**
- **Eye Of Newt**
- **Pink Fire**
- **Silver Grey Matt**
- **Red Clown**
- **Fiery Glow**
- **Deep Garnet**

Photography Brett Boardman

Perth Arena

Location Perth, Western Australia

Project Overview Perth Arena is a state-of-the-art multi-purpose venue located in the heart of Perth, Western Australia. Known for its striking architectural design and vibrant façade, Perth Arena hosts a variety of events, including concerts, sports, and entertainment shows. The project aimed to create a visually stunning and durable exterior that would withstand the harsh Australian climate while providing an iconic look for the venue.

Products Used For this project, DGL Powder Coatings provided high-performance powder coatings to ensure durability, colour retention, and a visually appealing finish. The products used include:

- **Fluoraset® Xtreme™ Black Satin:** Selected for its superior durability and colour retention, providing a long-lasting and vibrant finish. This product was used to coat the perforated aluminium components of the arena.
